- ✓ Make wise investment decisions

**UNBEATABLE**  
*WITH a HUMAN TOUCH*

## Finance specialists who offer so much more...

### Raising Finance

Clearing the hurdle of deciding you need to raise capital is a big decision – but it's only the start. Alpha-Financials knows what is required for each of these options and will ensure you get the appropriate outcome and the best financial deal.

### Valuations

Whether you're negotiating with prospective buyers, buying out fellow shareholders, supporting an employee share option scheme or for other HMRC purposes, Alpha-Financials will match an independent company valuation to the specific situation you have.

### Turnaround

To assess your business's overall financial structure and to suggest how to increase profits and improve risk management by better integrating finance and operations, we offer the services of one of Alpha-Financials' expert interim finance directors, typically for two or three days per month.

### M & A

If you are considering the sale of your business, or the purchase of another – whether in part or a complete buy-out, Alpha-Financials' in-depth experience of M&A transactions ensures you sell or buy at the best possible price, within an agreed completion timescale.

### Investment Decisions

Alpha-Financials provides solutions to various scenarios, ensuring business owners know how to value these opportunities. This means understanding the likely returns, how risks and returns can influence them and in the case of a bid, what price will prove competitive whilst also ensuring good returns into the future.

### Increasing Profits

Increase your profits by finding your business' hidden cash. This is money trapped in your business today and released without extra sales tomorrow. The effort required to get it is minimal compared with the benefits, but if you don't use it, you lose it.

Alpha-Financials is here to ensure your success through strong business fundamentals
